

We love to share with our guests that "We love Ocean Beer"

This love has translated into 25,190 liters of the best beer for the planet.

From our rooftops, restaurants and rooms you can enjoy every sip with the conviction that all profits are donated to the protection and restoration of our oceans.

100% of profits donated to restore & protect the ocean

A great beer can change your world

We have purchased beer worth **111.918 €**, which has been donated to Ocean Born Foundation, for conservation projects.

Furthermore, we are proud to be promoters of Ocean Beer also being produced in the Canary Islands through small local producers.

In our hotels, we provide free water Access for both gurests and employees, promoting sustainability and wellbeing. With over 16 wáter stations available, we encourage bottle reuse to significantly reduce our envirenmental footprint.

By this we embrace these practices as part of our commitment to the environment, inspiring teams and Guest alike adopt conscious consumption and incorpórate these daily practices beyond vacation stays

Through this initiative, we have prevented the consumption of 691,214 single-use plastic bottles, equivalent to **saving 14,635 kilograms of plastic** that would have required 217,420 liters of water for production. Additionally, 380,485 liters of pure water have refreshed us during vacations at our hotels. Join us in our commitment to sustainability!

We promote the use of reusable bottles at a minimal cost, where the sale of these bottles generates a €1 donation to the Foresta Foundation. In 2023, this initiative raised **1.521€ in donations**. Tourism supporting sustainability and conservation efforts!

With the action *"Don't throw the towel into the planet"* Last year our customers avoid the unnecessary washing of 105.416 towels, saving up to 527.080 litres of water which we were able to convert into a donation of 20.711€ to the Foresta Foundation

Through this initiative, the Foresta Foundation has planted 944 trees, sequestering 193 tons of CO2 and conserving 103,840 liters of water. Join us in making a positive impact on the environment!
